

### Remarks

Further to the Amendment and Response filed on May 1, 2007 (responsive to the Office Action mailed on February 1, 2007), please consider and enter the following supplemental amendments and remarks. With this supplemental amendment, claims 5 and 6 are canceled without prejudice or disclaimer. Claim 1 is further amended and incorporates subject matter from claims 5 and 6. Claims 1-4, 12-14, and 16 remain pending. Reconsideration and allowance are requested for at least the reasons set forth in the Amendment and Response filed on May 1, 2007, and the following reasons.

### Claim Amendments

With this Supplemental Amendment, claim 1 has been amended to clarify that invoking an action occurs when a matching sub-command binding is found. Claim 1 also clarifies that the commanding element is at an application level, and the second commanding element is at a control level or an operating system level.

As explained in the Amendment and Response filed on May 1, 2007, the prior art of record does not teach or suggest each and every element of claim 1. Reconsideration and allowance of claim 1, as well as claims 2-4 that depend therefrom, are therefore requested.

### Conclusion

Favorable reconsideration in the form of a Notice of Allowance is requested. Please contact the undersigned attorney with any questions regarding this application.
